PROFESSIONAL SUMMARY

Full-Stack Engineer with **2+ years of experience** building scalable software solutions and **AI integration**. Skilled in developing full-stack solutions using **Python, React, and modern cloud technologies**. Created ChatVectorAI, an open-source RAG engine that demonstrates hands-on **AI implementation**, semantic search, and scalable data pipeline design. Passionate about leveraging technology to build accessible, impactful tools that drive positive change.

TECHNICAL SKILLS

- **Languages & Backend:** Python, TypeScript, Node.js, FastAPI, REST APIs, System Design, C#/.NET,
- **Frontend:** React, TypeScript, Next.js, State Management, HTML/CSS
- **Databases & Cloud:** PostgreSQL, SQL, MongoDB, AWS (Cloud Practitioner Certified), Docker
- **Practices:** Git/GitHub, CI/CD, Agile/Scrum, Testing, Documentation, Debugging, GitHub Actions
- **AI & Data Systems:** LLM/RAG Integration, Semantic Search, Data Pipelines, Automation
- **Soft Skills:** Collaboration, Communication, Problem-Solving, Adaptability, Detail Oriented
- **Certifications:** AWS Certified Cloud Practitioner, ITIL 4 Foundation

PROJECTS

ChatVectorAI | Founder | Python, FastAPI, Supabase, Next.JS | [GitHub](#)

- Developed an open-source **RAG backend** for AI-powered document search and semantic querying.
- Built scalable **data pipelines** to transform unstructured documents into searchable formats.
- Designed with modular architecture, automation, and documentation for reliable cloud integration.

MovieBrain Web App | React | TypeScript | Node | Express | MongoDB | RTK Query | [Live Demo](#) | [GitHub](#)

- Built a **full-stack** React/TypeScript app with reusable UI components and REST API
- Implemented performant state management and data fetching using **RTK Query**.
- Prioritized **user-centric design**, testing, accessibility, and iterative feedback.

Photo Order Automation | Systems Developer | Batch Scripting, Systems Integration | [GitHub](#)

- Created **automation scripts** to process and validate bulk data uploads efficiently.
- Generated **audit logs** to ensure data accuracy, traceability, and compliance.
- Integrated **scalable system solutions** to support repeatable, error-resistant workflows.

WORK EXPERIENCE

Web Developer/Systems Analyst | Florida Memory | State Archives of Florida | Dec 2022 - Dec 2024

- Modernized a **high-traffic public web application** serving thousands of users
- Reduced bug resolution time by **~30%** through systematic debugging and full-stack diagnosis.
- Refactored legacy UI components for **accessibility (WCAG 2.1)**, security, and maintainability.
- Automated manual processes, saving **15+ hours monthly** and improving data reliability.
- Collaborated using **Agile practices** in a diverse cross-functional team-oriented environment.

EDUCATION

B.S. in Software Engineering | Western Governors University | Completed 2025

Relevant Coursework: Software Architecture & Design, Data Structures & Algorithms, Object-Oriented Programming, Backend Development, Software QA & Testing, SDLC & Agile Practices
